

# Protective Cover

## to protect a display from oil and chemical substances

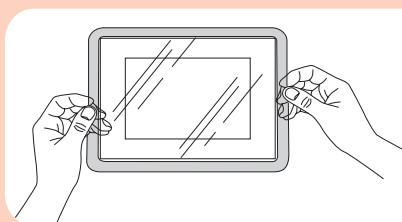

A protective cover that provides higher environmental resistance by putting it on the Pro-face's touch panel which meets IP65f and is tough in various environments.

Able to enhance the environmental resistance at sites where use oil for the production of machine tools or auto parts or chemical substances.

### Supported Models

- 10.4-inch Protective Cover Model No. CA8-ODP10-01  
GP-35\*0T, ST-3501T/C
- 5.7-inch Protective Cover Model No. CA4-DCMDL-01  
GP-33\*\*T/S/L/B, ST-3301S/L

Easy to attach without removing the main unit from the panel and enables to protect from oil and aged stain.

### External Specifications

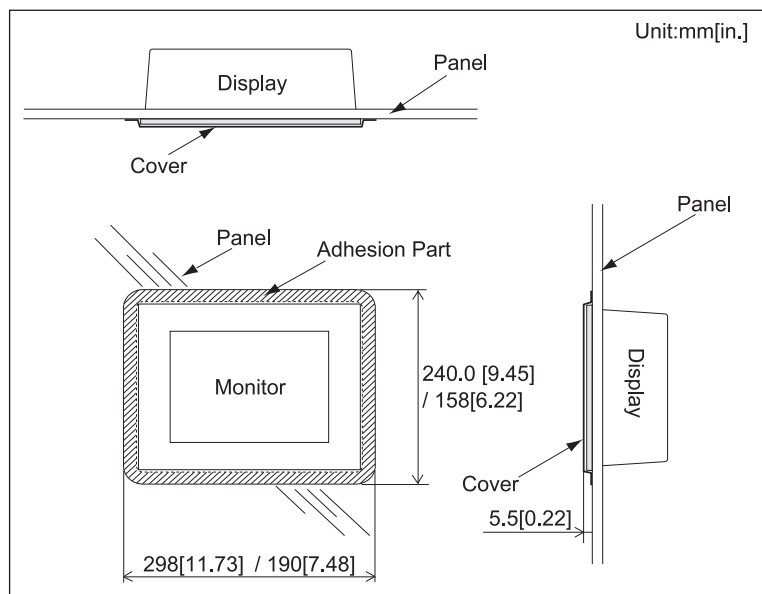

Chemical Name	Pass	Chemical Name	Pass
Hydrochloric acid 10%	○	Hexane	○
Concentrated Chloride	×	Kerosine Oil	○
Sulfuric Acid 30%	○	Mineral Oil	○
Concentrated Sulfuric Acid	×	Mortar Oil	○
Sodium hydroxide 1%	○	Cottonseed Oil	○
Sodium hydroxide 10%	×	Olive Oil	○
Formic Acid 5%	○	Carbon tetrachloride	○
Formic Acid 90%	×	Trichloroethylene	○
Oleic Acid 100%	○	Ethanol	○
Hydrogen peroxide 3%	○	Toluene	○

Although created based on the reliable information which came to hand from the material maker, since chemical resistance is influenced according to use environment, it does not offer a guarantee on all conditions. On the occasion of the time of use, clients should examine individually and confirm conformity enough.

### Chemical Resistant Performance

	CA4-DCMDL-01	CA8-ODP10-01
External Dimension	W190×H158×D5.5mm [W7.48×H6.22×D0.22in.]	W298×H240×D5.5mm [W11.73×H9.45×D0.22in.]
Weight	20g [0.04lb] or less	60g [0.13lb] or less
Color	Transparency	
Material	PET Resin
